

PG&E WaveConnect™ Public Meeting

Please join us for an update on the Humboldt WaveConnect™ pilot project.

WaveConnect™ is a proposed 5 megawatt, 5-year wave energy pilot project that would be located off the coast of Humboldt County. The project would allow several wave energy developers to test their technologies while providing power to the local grid.

Join us to learn more about:

- Project overview, timeline and project milestones
- Site selection, maps and a visual tour of the pilot project
- Wave energy devices and technologies
- Environmental review: project permitting, potential project effects and monitoring and adaptive management
- The Humboldt Working Group and other public involvement activities

For more information, please call 1-877-743-6463.
